ONE-KEY
UNLOCKING THE DIGITAL JOBSITE.

INNOVATION IN CONSTANT DEVELOPMENT

DO WHAT MORE THAN 10 000 OTHERS IN THE INDUSTRY DO - GET AN OVERVIEW OF YOUR INVENTORY, INCREASE YOUR PRODUCTIVITY AND PROTECT YOUR TOOLS FROM THEFT.

DIGITAL INVENTORY

On the ONE-KEY™ platform you can add ALL tools and equipment, regardless of supplier, and get a complete overview of your tool inventory. Add unlimited users for free, assign tools to employees and see which tools are in use, ready for use or for service.

Set service reminders for your equipment and ONE-KEY™ will ensure that your tools work at full capacity.

Build a digital breadcrumb trail with accessible history of when, where and how your tools have been used so you can better perform assessments of efficiency and use, or use it to track your tools if they are missing.
Print professional reports and obtain documentation on the quality of the tool and application.

FREE TO USE.

REPORTING
PROFESSIONAL REPORTS TO DOCUMENT YOUR WORK

REPORTING

With ONE-KEY™ platform you will get insights into how your tools and equipment perform, **completely free.**

User-friendly reports about the performance of the tools and whether your inventory is utilized optimally.

Maximise your tool performance,
access tool history of when, where,
and how your tools have been used.
Set service reminders on your equipment,
and One-Key will let you know when
your attention is needed.

CUSTOMIZE YOUR TOOL

SAVE TIME AND MONEY

- With One-Key compatible tools, you can maximise tool performance and accessory life.
- Dial in precision settings for unique applications. Get in and out of installations quicker, with greater accuracy and consistency.

SIMPLIFIED MAINTENANCE

- Set automatic service reminders on your equipment.
- Automatic alerts ensure your tools are working at full capacity and their long-term integrity is maintained.

INDUSTRY'S LARGEST TRACKING NETWORK

TICK™

ATTACH TO ANYTHING. TRACK ANYWHERE.

TRACKING & THEFT PROTECTION

Gain full control of your assets with ONE-KEY™. Track your ONE-KEY tools quickly and easily by viewing recent locations in the app. If an accident occurs and your ONE-KEY tool disappears or is stolen, it can be quickly locked from the app and make it useless to thieves. Our network, which consists of hundreds of thousands of users, helps find it, even if the battery is disconnected.

TRACKING

DID YOU FORGET WHERE YOU LEFT YOUR TOOL? SEE THE LOCATION OF WHERE IT WAS LAST USED.

THEFT

REMOTE TOOL LOCKOUT MAKES STOLEN TOOLS USELESS TO THIEVES.

ALERT

WHEN ANOTHER ONE-KEY™ USER GETS CLOSE OF YOUR MISSING OR STOLEN TOOL YOU WILL GET NOTIFIED.

EVEN IF THE BATTERY IS DISCONNECTED!

SCAN THE CODE AND SEE ALL ONE-KEY™ TOOLS AND FIND OUT MORE ABOUT THE FREE SYSTEM.

TICK™

The new MILWAUKEE® tracking device can be attached to any asset. It uses the ONE-KEY™ network and Bluetooth® to provide accurate information of the date, time, and location of your asset for easy tracking. It has a range of 90 meters and a built-in battery with 3 years of operation.

The tracking device has a built-in speaker that can emit sound as an effective part of anti-theft and tracking. In addition, the accelerometer warns if an asset has been used or moved from its place.

FUNCTIONS:

- **3 YEARS OF OPERATION**
- **EMIT SOUND** ANTI-THEFT AND TRACKING
- **DURABLE MATERIAL** MANAGES TEMPERATURES FROM +60 °C TO -20 °C
- **TRACKING RANGE OF 90 METERS**

TOOLS

SET UP YOUR OWN GEOFENCE

To best secure your tools, you can set an invisible perimeter around any site and assign equipment to that place. Whenever a tool assigned to one of your geofences is seen outside of it, you'll be alerted.

GET ALARM

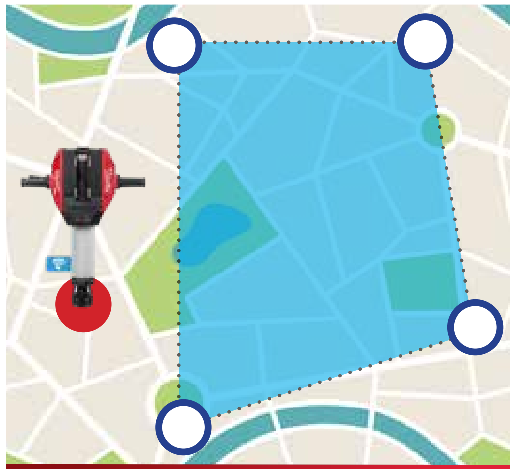
YOU WILL BE NOTIFIED IMMIDIATELY IF YOUR TOOL LEAVES THE INVISIBLE FENCE.

TRACK YOUR TOOL

TRACK WHICH TOOLS ARE LOCATED AT THE SPECIFIC JOB SITE AND WHICH TOOLS HAVE LEFT IT.

LOCK YOUR TOOL

LOCK YOUR TOOL AND MAKE IT USELESS FOR THIEVES.



GET NOTIFIED WHEN YOUR TOOL LEAVES THE INVISIBLE FENCE!

PERSONAL SAFETY

Increased safety with anti-kickback control
To increase safety and avoid the risk of injuries on the job site, the majority of ONE-KEY™ tools are equipped with anti-kickback control.

Anti-kickback control stops the tool instantly if the user experiences recoil from the tool during applications with high torque.

Customise settings
Increase security further by setting precision settings on your tool, such as speed and torque, and get in and out of installations quicker, with greater accuracy and consistency.

QR CODE ON THE TOOL

We have expanded digital inventory management so you can track and manage your inventory of small tools effortlessly with QR codes. The QR codes are available in different sizes and can be attached to different materials. All you need to do is scan your tool and the date and location of the tool will be updated under your ONE-KEY™ profile.

Track your inventory with QR code

Use your phone or tablet to scan the code

Date and location will be updated with the scan

Durable - Can be attached to plastic and metal surfaces

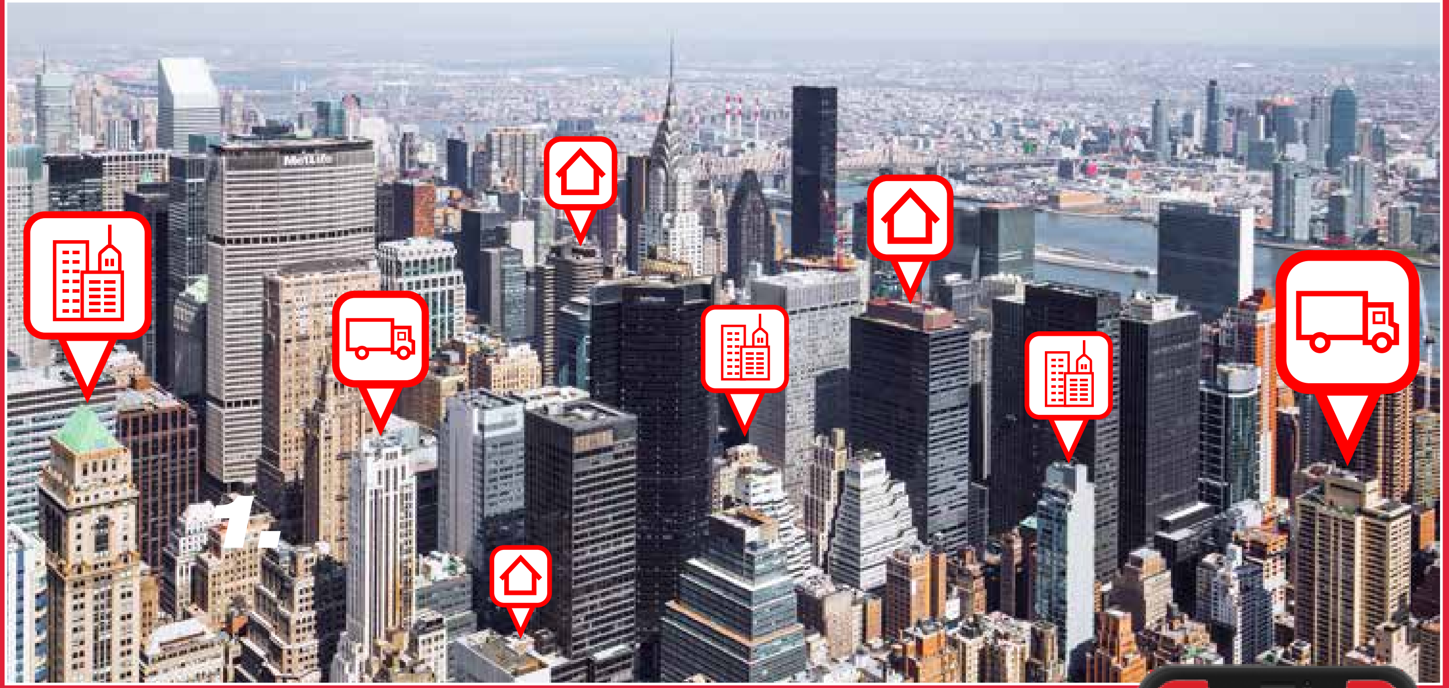
PLACE MANAGEMENT

Place Management gives users the opportunity to assign inventory to a job site, homebase or vehicle. Once created, ONE-KEY™ will then provide an overview of all tool and assets data in that location, as well as identify the tools and equipment not seen in the last 5 days.
In addition, you can scan for tools at a specified location within the Bluetooth® range. This gives the user an instant overview as to what tools are still on location and more importantly any that may have been moved off site.



PLACE MANAGEMENT

STEP 1 **Assign tools to your area**

STEP 2 **Transfer tools between location projects**

STEP 3 **100% overview and control of the placement of your tools**

TOOL SCAN

When using the "Scan for" function, Bluetooth® helps keep track of whether your tools are where they need to be.

For example, you can set the job site or the company as an area so you always know if your tools and equipment are nearby!

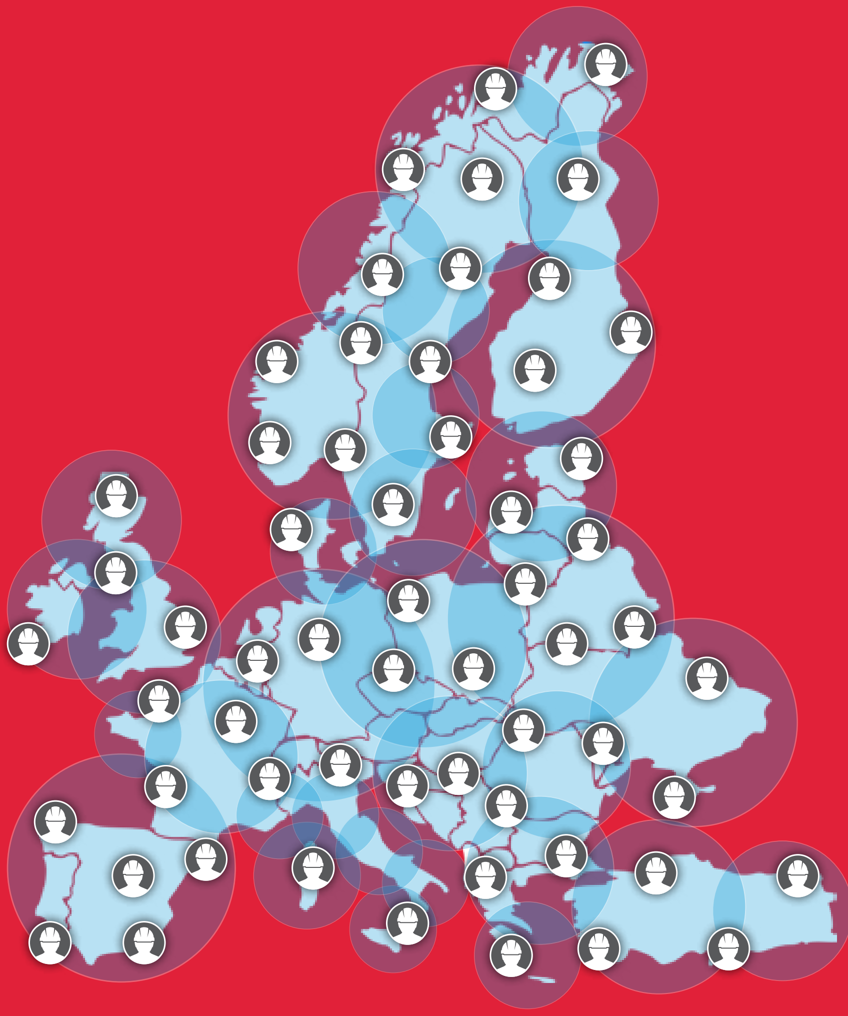
ONE-KEY™ NETWORK

Since its launch in 2016, ONE-KEY™ has continued to innovate and drive industry disruption in the world of digital power tools. With currently over 6 years' experience and over 30+ tools in its range, ONE-KEY™ is a trade-focused, market-leading software designed to benefit all areas of the industry.

ONE-KEY™ harnesses cloud technology to deliver best-in-class asset management solutions at **no cost** to the user and is accessible from a range of devices. The ONE-KEY™ platform is supported by our ever-expanding **worldwide** user network giving you maximum coverage to Customize, Track and Manage your inventory. There are over 10 000 new users in Denmark per year.



LARGE USER NETWORK

If your equipment is missing at the job site, you report it missing in the ONE-KEY™ app and as soon as the tool comes into a 30m radius of a ONE-KEY™ user you will be notified of its locations.

EFFORTLESS EQUIPMENT AND TOOL TRACKING
